Making the Grade

Distributor rationalization and pressure to increase operating efficiencies are changing the way manufacturers evaluate their business models. We have worked with many of these vendors to provide a solution, enabling more distributors to retain access through our services. In addition, you are able to save money in freight and inventory.

Increase Functionality and Reduce Cost

MedPlus Services delivers a business solution allowing you to combine and consolidate multiple manufacturers in a single purchase order. Locate those hard to find items and buy only what you need, when you need it.

Give Us a Try

All MedPlus products are sourced directly from the manufacturer – there are no gray market goods. Enhance your ordering patterns and operational efficiencies – contact Al Roberts at **877-436-5378**.
